SPREAD

Sharing good Practices foR European
mobility Activities Development

Aim: to promote internationalization and transnational mobility in VET Institutes and organizations

Objectives
- recognising of knowledge, skills and competences acquired abroad;
- increasing and improving communication to involve stakeholders, such as VET providers and SMEs;
- upgrading the competences and skills of the staff on specific and relevant issues related to mobility;
- fostering the quality and efficiency of VET by providing the staff of VET organizations with specific training on relevant issues related to mobility;
- increasing VET and SMEs capacity of operating transnationally and promote work-based learning through mobility projects;
- realization of six joint staff trainings events aimed at sharing and confronting tools, good practices and methodologies related to the implementation and management of European mobility projects;
- developing and reinforcing European networks;
- spreading the knowledge acquired by the staff of the participating organizations in each partner Country through the organization of local seminars;
- producing a guide of good practices for the implementation of European mobility projects by the Partnership and uploading on the project website as a free OER.

Co-funded by the
Erasmus+ Programme
of the European Union

Name of Project:
Sharing good Practices
foR European mobility
Activities Development
