digital garden for european schools

newsletter #1

RETHINKING EDUCATION The idea behind the project

The education context is changing progressively, education based on open technology will be "necessary" and not only "desirable" in a short while, and this counts towards all age groups, We need to ensure that especially young people are equipped with the essential digital skills for their future.

It is clear that the principal challenge of these years is not only the improvement of education through the digization.

WELCOME TO THE FIRST NEWSLETTER OF THE DigiEU PROJECT!

We will be happy to tell you about:

- The idea behind the project
- The members of your consortium
- The first Transnational Project Meeting

The idea behind the DigiEU project is to provide more quality in teaching and learning, expand the knowledge and understanding of the educational practices of the countries involved, modernization of schools, need to active participation by students.

ABOUT THE PROJECT

Specifically, the project consists of a path that will lead students to develop knowledge and basic skills, with which they will be able to install and maintain small gardens with a designer and maker. These knowledges will be acquired by students through frontal workshops and lessons held by farmers, designers, nutritionists through education 3.0. (TEAL).

WHAT ARE THE GOALS?

For the teachers, students and school system:

- Improving the pedagogical skills and the didactic instruments;
- Promoting co-operation to ensure the quality of education;
- Promoting innovative work practices, learning and discussion;
- Create synergy between the active organizations in the field of Education, Local governments and participant organizations to encourage a better quality of education.

1ST TRANSNATIONAL PROJECT MEETING IN ITALY

MEETING IN TRANI, ITALY

The kick-off meeting in the framework of the project "DigiEU - Digital Garden for European Schools" took place in Trani (Puglia - Italy) on the 22th - 23th of October 2019. The meeting has been hosted by PETIT PAS, the project host.

The meeting started with welcoming and presentation of partners. The coordinator presented the project development plan including deadlines of tasks and division of work between partners. Partners have discussed all the upcoming activities. They summarized the meeting and all the partners decided to use ADMINPROJECT as platform to share, upload files, for dissemination and evaluation tasks; except for the function TASKS/ DISCUSSION/ FINANCE because communication will be maintained via email and expenses will be registered in a time sheet provided by PETIT PAS.

The next meeting is planned for April 2020.

PROJECT PARTNERS

The project is developed by five partners from five different EU countries:

Petit Pas (Italy)

Danmar Computers SP ZOO (Poland)

Município de Lousada (Portugal)

Liceul Teoretic Marin Preda - Turnu Magurele (Romania)

Cross Cultures International Foundation (Cyprus)

COMING NEXT...

During the next months we are going to:

- Operational planning for the project
- Implementation of the various activities/ phases of the project
- Division of tasks and responsibilities between partners
- Analysis of the possible risk factors for the project
- Planning of project activities timetable, deadlines and transnational meetings
- Debate on the administrative and financial side
- Meeting again in April 2020 in order to discuss the next steps of the project
