DigiCulTS for SME
Starting the DigiCulTS Project

It all started in November 2019, when the DigiCulTS team finally received the happy news: Our project was chosen to be funded by the European Union.

"DigiCulTS - Digital Culture for SMEs" is an Erasmus+ project to support **Small and Medium Enterprises** (SME) to **find their place in the digital society**.

The DigiCulTS project team during the project kick-off meeting in Saalfelden in January 2020: Working together to support SME to develop digital competences.

What is DigiCulTS all about?

During the project time, we will try to get in touch with our target group to know more about their challenges and needs. Until April 2022, we want to provide the following services for SMEs on digicults.eu:

Understand Why
Understand why digital comepences are important for your organisation and for your professional development.

Quick-Check
Learn more about your digital competences by using the DigiCulTS quick-check. Based on your results you receive guidance for your next learning and development steps.

Online Course and Library
The DigiCulTS Online Course provides and introduction into digital culture. Get ready for the digital future—now! The DigiCulTS Online Library offers you a range of open education resources to stay updated.

How to stay tuned

Stay tuned and follow our Hashtag **#digicults** on **facebook, linkedin, twitter and instagram**. The project partners will keep you posted on their national developments and progress, in national languages and/or in English.
Make sure to follow our new Facebook-Page @digicultsforSME!

Looking forward to sharing our #digicults project developments with you!
