Advancing Vocational Competences in Soft Skills for IT Professionals

Project number: 2020-1-PL01-KA202-081864

Implementation period: 01.10.2020 – 30.09.2022

Funding Programme: Erasmus+

Welcome to SayIT

SayIT project, will focus on strengthening capacities of target-groups, through development of soft skills and will help IT professionals to further develop their careers. The project will elaborate a Curriculum that introduces key competences (Soft Skills curriculum for IT Professionals) and will develop methodology of delivering and assessing the learning outcomes of this Curriculum through an innovative training app using the visual novel methodology.

What we will develop

SayIt project results will be the following:
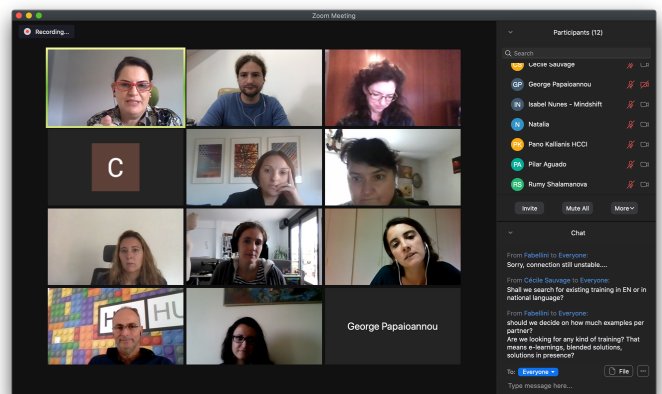

1) **Soft Skills Curriculum for IT Professionls**
This output will serve as a guidance for vocational institutions and relevant stakeholders in the field of soft skills. Its aim will be to design the Curriculum that will build upon the development of soft skills for IT professionals.

2) **Soft Skills Trainer App**
The second Intellectual Output will be an innovative training app for IT professionals that will allow them to raise their vocational qualifications in the area of soft skills. With the use of the visual novel methodology, it will put IT professionals into simulated environment, test their reactions and provide them with relevant learning resources

Online Kick-off Meeting, 22 October 2020

The first meeting between partners took place online key issues regarding the management and development of Intellectual Outputs were discussed and agreed between the Partners.
