# VALITS 2.0

## NEWSLETTER N°4, October 2021

Project Number 2019-1-ES01-KA202-065683

### Fasten your seatbelts, it's time to take off!

#### NEWSLETTER CONTENT

- Country, sea, or City?
- A new Archipelago appears!
- Soft Skill Loading...
- New level-up occupations?
- Role Playing Workshops
- You are invited! The VALITS 2.0 Final Conference

#### COUNTRY, SEA OR CITY?

Where do you feel more comfortable?, working at the countryside?, by the sea? or you prefer to work in an office? You will have the opportunity to test your soft skills in 10 different 3D game scenarios that are now fully developed in its final version.

Did you have a chance to read our previous newsletter? If not, we introduced the 5 first games of the Assessment Tool and we challenged you to become a farmer, a stevedore or a waiter in a busy restaurant.

October 2021 brings new developments and you are now asked to become a mascot of an amusement park, a factory inspector or work as a baggage handler in the VALITS 2.0 Airport. This one last job will allow you to take a flight and travel to the next VALITS 2.0 Island!

#### A NEW ARCHIPIELAGO APPEARS!

The recent volcanic activity in Europe has resulted in a new group of islands, that we called the VALITS 2.0 Archipelago.

This Archipelago can be found on the [valits.eu](http://valits.eu) website and each island will give you access to each VALITS 2.0 tool.

Co-funded by the  
Erasmus+ Programme  
of the European Union

# VALITS 2.0

## SOFT SKILL LOADING...

When you complete the Assessment tool you will receive your personal soft skill results, but our challenges do not end here! Do you want to improve or further develop your soft skills? Then find a course that suits your needs in the Skills Learning Guide! It is now ready to use and can be accessed through the VALITS 2.0 Archipelago!

## NEW OCCUPATIONS?

If you are a career consultant, you may know that guiding the right candidate for the right job position means focus and dedication. Hard skills are important, but what if the candidate has all the right hard skills but none of the soft skills that would ensure they're a perfect fit for the position? Furthermore, given recent global events and a competitive job market, are soft

skills more important than ever? For that reason, partners have now finalized the Training Manual for Professional Qualification Consultants which offers the opportunity to learn more about guiding low skilled workers into new career perspectives according

## LEVEL-UP

not only to their hard skills but also to their Informal Transversal Skills and personal Interests.

## ROLE PLAYING WORKSHOPS

The National Workshops took place in September in all partner countries. Participants were asked to try out the Assessment Tool and the Skill Learning Guide, and we received good valuable feedback from Tech Geeks and career consultants.

Role play occupied the second part of the event where, in pairs, participants were asked to act as low-skilled workers and career consultants. Consultants made use of the VALITS 2.0 Model to guide low-skilled workers into new level-up occupations. Big success!

## YOU ARE INVITED! THE VALITS 2.0 FINAL CONFERENCE.

Being at home and testing the outputs sounds cool but experiencing the official launch of the VALITS 2.0 tools during the final conference in Spain is even cooler! Therefore, we invite you to assist our Final Multiplier event which will take place on the 11<sup>th</sup> of November in Palma de Mallorca. Stay tune for more updates and information!

## PROJECT SUMMARY

Within the competitive European employment market Informal Transversal Skills get more and more important. Especially for disadvantaged people and low skilled persons these Transversal Skills could be the key to access a job.

The objective of the Valits 2.0 project is to assess the Transversal Skills of these persons with a tool, validating their skills with a Skills Certificate that employers can trust and helping them to improve their skills with the help of a Learning Guide. Furthermore a training manual will be provided for professional qualification consultants of how to support these persons.
