## NEWS FROM CORAL!

### Pilot test of CORAL methodology

During autumn we finished the MOOC academy and Start-up labs and started with the pilot testing. We involved the participants from the target group of the unemployed and other interested people, who had the chance to improve their entrepreneurial skills. At the end of the pilot test the participants provided us with the feedback to all educational materials through online survey.

### Last CORAL meeting

The last project meeting was held in Valencia on 15 – 16<sup>th</sup> of December 2021 and it was partially disrupted by COVID pandemic. In fact, all the project team was not able to meet in presence and the whole meeting was realized in blended version: 8 members participated in face to face and others connected online. At least one some team members had the chance to spend a nice moment at dinner together. We discussed the finishing touch of the pilot test, future multiplier events and other steps necessary to the successful project end.

### CORAL project closing

We will incorporate the feedback on all CORAL methodology from the pilot test and provide the general public with the CORAL educational methodology. During December we are closing all project activities and focusing on the project sustainability, which was discussed during the last meeting. We have drafted the sustainability and exploitation plan and we will continue with dissemination activities to the target group.

To use the CORAL methodology, you can first make the self-assessment test of the entrepreneurial skills published online on:

<https://coral.erasmus.site/self-assessment/>

and improve your entrepreneurial skills through the CORAL Start-up academy after registration on:

<https://coral.erasmus.site/register-to-the-coral-start-up-academy/>

At the end of study you can obtain the international certificate.

You can also improve your entrepreneurial skills without registration on direct link:
