

E-brief #3 June 2023

VOICES: EMPOWERING WOMEN FOR EQUAL PARTICIPATION AND DRIVING CHANGE

OBJECTIVE

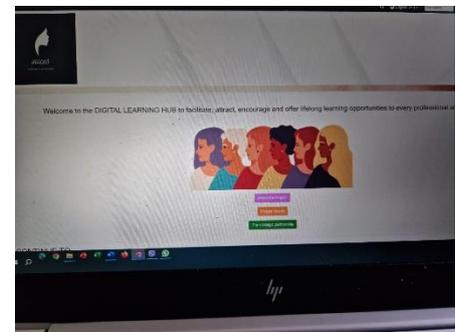

VOICES is a European (Erasmus+) project that aims to help bridging the gender divide and foster women's participation in society, by providing women and professionals working with them with a set of gender-responsive educational resources, specifically designed to promote gender equality and equal participation in society.

PARTNERS

A multi-sectoral partnership of expert organizations in social innovation, VET and Life – Long – Learning, and empowerment for women joined forces to create a comprehensive educational proposal to support women, especially those at risk of exclusion.

WHAT WE HAVE DONE SO FAR

We are thrilled to share the remarkable success of our MOOCs pilot sessions for women that took place this spring. The feedback from participants has been overwhelmingly positive, with enthusiastic responses highlighting the material's relevance to the crucial topics of gender equality and women's empowerment.

These sessions have provided a supportive platform for women to engage with experts, share experiences, and foster a sense of community. We are inspired by the impact these courses have had on the lives of our participants and remain committed to fostering gender equality through accessible and empowering educational opportunities.

NEXT STEPS
