VOICES: EMPOWERING WOMEN FOR EQUAL PARTICIPATION AND DRIVING CHANGE

OBJECTIVE

VOICES is a European (Erasmus+) project that aims to help bridging the gender divide and foster women's participation in society, by providing women and professionals working with them with a set of gender-responsive educational resources, specifically designed to promote gender equality and equal participation in society.

PARTNERS

A multi-sectoral partnership of expert organizations in social innovation, VET and Life – Long – Learning, and empowerment for women joined forces to create a comprehensive educational proposal to support women, especially those at risk of exclusion.

WHAT WE HAVE DONE SO FAR

While the MOOC pilot was a success, we examined the evaluation carefully. Most women identified their beliefs and experiences in the provisions, they found the experience and its impact positive. However, they found the language difficult at times, the text lacking of images. Their input has helped us significantly to improve our outputs.

NEXT STEPS

Don't miss out on our multiplier events! We are planning multiplier events in partner countries in the next few months for the dissemination of our work.
