

Women Get Ready Project Enters the Piloting Stage!

The Women Get Ready project consortium is excited to announce an exclusive opportunity for women to participate in the piloting phase of our online educational platform! Designed with the goal of enhancing digital skills and empowering women in today's fast-paced digital landscape, this platform is a great way for women seeking to thrive in the digital world to jumpstart their job opportunities in the new digital workplace.

Key features of the platform include:

- **Innovative digital resources** such as MOOC courses designed specifically for women to develop 11 digital skills and competences at both intermediate and/or advanced level
- **Digital readiness competences dictionary** is designed to support you in discovering digital competences in these 11 areas
- **Digital readiness Self-Assessment Tool** that can be used to evaluate your progress in any of the 11 digital competences
- **Female avatars** representing real-world role models, providing examples of various jobs in the digital sphere – inspiring you to consider a digital-focused career.

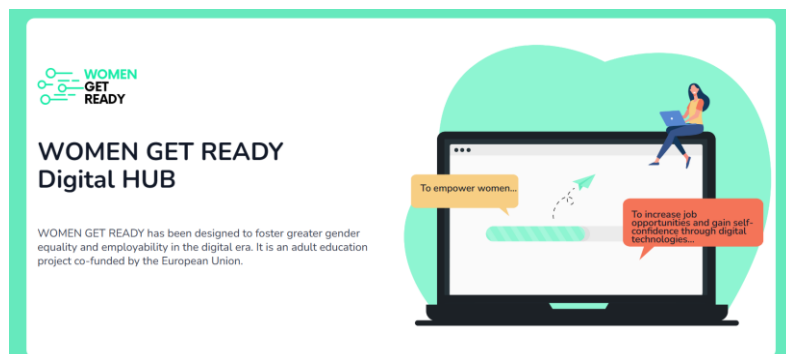

The Women Get Ready project would like to invite women from all walks of life, regardless of age, background, or prior experience, to join us in this exciting journey towards empowerment through digital education. By participating in the piloting phase, you will have the unique opportunity to be among the first to experience the platform's transformative impact. Contact your local project partner to find out how you get involved – do it today, you won't regret it!

Piloting has already been completed in two partner countries (Ireland and Cyprus)!

During the piloting, participants got to engage with the digital materials and resources, and gained important hands-on experience on how to use the digital platform to increase their competency in the 11 digital areas.

WOMEN GET READY
Digital HUB

WOMEN GET READY has been designed to foster greater gender equality and employability in the digital era. It is an adult education project co-funded by the European Union.

To empower women...

To increase job opportunities and gain self-confidence through digital technologies...
